Summary

Software and data professional with a B.S. in Computer & Information Science and experience building dashboards, automated data pipelines, WordPress plugins, and internal tools for retail operations. Develops independent grocery-pricing systems whose outputs support competitive analysis, website-price monitoring, and operational decision-making. Strong in Python, SQL, JavaScript/TypeScript, GitHub Actions, APIs, automation, and production support.

Technical Skills

Languages	Python, SQL, JavaScript, TypeScript, Bash, PowerShell
Data/DB	SQL Server, SSMS, PostgreSQL, SQLite, pandas, NumPy, JSON/JSONL, time-series analysis
Pipelines	GitHub Actions CI/CD, Playwright, REST APIs, scheduled workflows, validation, reconciliation
Web/Tools	WordPress plugin development, dashboards, React, HTML, CSS, GitHub Pages
Additional	FastAPI, Pydantic, SQLAlchemy, service integrations, scikit-learn

Experience

Gala Fresh Farms Supermarkets **New York, NY**
IT Operations Manager **Nov. 2025 – Present**

- Support legacy LOC SMS POS and back-office systems across 2 store locations, resolving database, workflow, payment, and user-reported production issues.
- Build dashboards, automations, and WordPress plugins for batch monitoring, weekly circular publishing, and local-to-live website workflows.
- Feed independent grocery-pricing data into internal competitive tools, comparing company website and competitor online catalog prices while keeping them distinct from shelf and POS pricing.

Contract Work **Des Moines, IA**
IT Operations Analyst; Desktop Support Specialist; Traveling Infrastructure Engineer **Jun. 2022 – Jul. 2023**

- For Wells Fargo, validated provisioning workflows for 600 weekly shipments against 48-hour SLA and zero-defect standards.
- For LCS, supported migration of 22,000 employee profiles into Okta and resolved 70 daily access, login, and escalation requests.
- For John Deere, served as frontline infrastructure contact across 3 enterprise environments, documenting issues and coordinating fixes.

Earlier Work **2014 – 2022**
Help Desk, Account Management & IT Support

- Provided Wright Service Corp help desk support across user issues, remote troubleshooting, and documentation.
- Supported Edge Realty Group account management and IT workflows across file server access, onboarding, and remote support.

Projects

GalaFreshBaldwin **frankiejvaldez.com/projects/galafreshbaldwin**
• Built a daily Python/Playwright pipeline for 9,606 listings and 775 promotions, with integrity gates and searchable price history.

KingKullenResearch **frankiejvaldez.com/projects/kingkullenresearch**
• Built a weekly pipeline for 20,000+ catalog records and 16,000+ UPCs, publishing longitudinal price and assortment reports.

StopShopResearch **frankiejvaldez.com/projects/stopshopresearch**
• Built a validated weekly Stop & Shop catalog pipeline publishing price, promotion, assortment, and anomaly reports.

GoodJob **frankiejvaldez.com/projects/goodjob**
• Built a scheduled Node.js pipeline normalizing Greenhouse, Lever, and Ashby feeds into a searchable job dashboard.

Education

SUNY Old Westbury **Jan. 2024 – Aug. 2025**
B.S. Computer & Information Science, GPA 3.85; Dean's List; Coding Club Re-Founder

Nassau Community College **2015 – 2017**
Associate of Science (A.S.)

Certifications: Google UX Design Certificate; Google IT Support Certificate
